

II/6 REVERSE

Info Sheet

Low Ribs Ideal for *Durable Interiors & Soffits*

The *II/6 Reverse* panel is widely used in soffit applications. Perforations can be added in the manufacturing process as an option for vented soffit. Great for commercial, agricultural, and residential applications.

The 6" span achieves a more subtle and clean appearance compared to other exposed fastener panels making it a great profile for interior liner applications, as well as exterior applications.

Applications: Wall, Ceiling, Soffit, and Fascia

Coverage: 36" | **Depth:** 1/2"

Available Gauges: 24, 26 & 29

Available in 50+ Standard Colours & Specialty Finishes

Cutting charge applies below 48"

More colours & gauges are available by special order

Available with Perforations

We can add perforations in the manufacturing process as an option for vented soffit.
