32-7/8" CORRUGATED

Info Sheet

Incredible Impact Resistance & Structural Stability

This high-strength panel features a wave-like profile ideal for a variety of applications from roofing to decorative accents. The corrugations measure 2.67" from crest to crest and produce a shadow effect that is both symmetrical and aesthetically pleasing.

With incredible impact resistance and exceptional structural stability, these panels are ideal in environments with high impact, wind, and snow volume.

Applications: Roof & Wall

Roof Coverage: 29-5/16" with 2-rib overlap

Wall Coverage: 32" with 1-rib overlap

Rib Height: 7/8" at 2.67" centers

Panel Length: 32" to 50'

Available Gauge: 26

Available in 20+ Standard Colours

Recommended Slope: 3/12 with overlap sealant (sealant required)

Note: Confirm with construction standards and underlayment manufacturing

Note: More colours & gauges are available by special order

These panels are highly adaptable and are used in everything from modern residential designs, large-scale commercial projects, to agricultural barns. Install *vertically* & *horizontally* to achieve dynamic designs.

32-7/8" CORRUGATED

Recommended Trims

Our trim codes will depend on your rib height/coverage of choice. Included on this sheet are the most commonly selected trims for this panel but *custom trims are available*. When selecting your trim, please ensure you indicate your gauge & colour of choice.
