

Polycarbonate Panels

Polycarbonate sheets are hail and wind resistant, flame resistant and energy efficient. Ideal applications for polycarbonate panels are for windows, greenhouses, agricultural outbuildings, as roofs over patios, walkways and terraces, for sound insulation barriers and as skylight and sidelight panels to filter ultraviolet sunlight. They can even be used for interior and exterior architectural applications and office and commercial partitions.

FC-36 Polycarbonate

Available in:

- Clear (0.8mm Thickness) & Smoke (1.0mm Thickness)
 - Lengths Available in: 8', 10', 12', 16' & 20'
- Opal White (0.8mm Thickness)
 - Length Available in: 12'

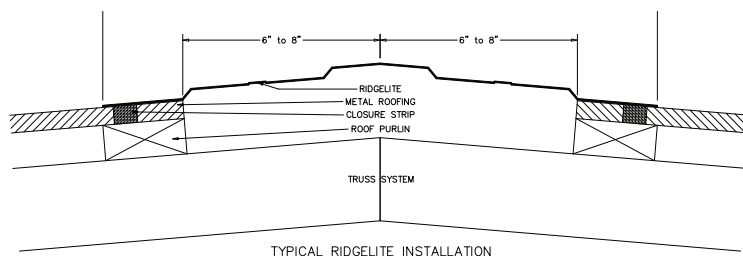

FR-Panel Polycarbonate

- Thickness: 1.6mm"
- Available in Clear & Opal
- Length Available in: 12'

RIDGELIGHT Polycarbonate Ridge Cap

Available in:

- Clear 0.050" (1mm Thickness) & Smoke 0.040" (1.2mm Thickness)
- Length Available in: 24" x 10' 6"

Polycarbonate Twin Wall Panels

Polycarbonate Twinwall Panels are a high performance roofing sheet which has been designed for industrial, commercial, architectural and domestic applications where insulating glazing is required. These polycarbonate sheets have cellular structures that provide the product with insulation and resistance.

Protected from ultraviolet rays by co-extrusion of U.V. on the outside face. Twinwall Polycarbonate Panels are perfect for applications requiring a material that offers high light transmission, thermal insulation, lightness of weight with strength, high shock resistance, flame retardance, and design flexibility.

Polycarbonate Light Twinwall Panel

- Sheet Thickness: 8mm
- Colours Available in: Clear or Smoke
- Coverage: 4 Feet
- Lengths Available in: 2', 4', 8', & 12'

Polycarbonate Light Twinwall

H-Profile for Connecting Panels Together

- Sheet Thickness: 8mm
- Colours Available in: Clear or Smoke
- Lengths Available in: 12' Only

Anti-Dust Tape for Twin Wall Products

- Tape Thickness: 8mm
- Available in Vented or Closed
- 33m Roll
