## Your Premium Metal Shingle Roofing Solution

Wakefield Bridge® steel shingles offer Western Canadians a premium roofing solution that blends exceptional durability with elegant curb appeal. Manufactured from 29-gauge Canadian-made steel, these shingles outperform traditional asphalt products while providing long-term, worry-free protection for your home with a 50-year transferable warranty.

**Application:** Roof    **Minimum Pitch:** 4/12

**Panel Size:** 38.875" x 12"

**Available Gauge:** 29

**Available in 3 Standard Colours**

*More colours available by special order*

**50-Year Transferable Warranty**

**PVDF Paint System with Kynar 500 Resin**

**Advanced Cool Roof® Solar Reflection Technology**

Installed over minimum 1/2" plywood sheathing

ASTM A792M, Grade 33 (Mill finish Galvalume Plus AZ165)

### Superior Weather Protection

From hail-prone prairies, high-wind regions to wildfire-risk zones, these steel shingles are performance engineered for Canadian climates with **Hurricane-Grade Wind Protection**, **Class A Fire Rating**, and **Class 4 Impact Rating**.
